

Hello, we are Josh & Samantha.

We admire your decision in choosing adoption as it is a very loving and selfless decision. We understand your child's future is what is most important to you and we wish only the best for you and your baby throughout this time and in the future.

We've always wanted to be parents and to be able to share the love, humor and happiness in our lives with a child. We enjoy spending time with our nieces and nephews and would love to start our own family.

When we found out we would be unable to have biological children, we decided that adopting would be our path to becoming parents. Since Samantha's brother has two children who are adopted, we know first hand how adoption can enrich families and our lives. We along with our family and friends are very excited and look forward to bringing a baby into our family. Thank you for taking the time to read about us. We would be honored if you chose us to be the family who will love, cherish and nurture your child.

We met through work 12 years ago when we were both living in Delaware and we immediately became friends. We began dating about a year and a half later when we realized that our feelings for each other had deepened. Even in the beginning before we dated, we got along really well and our personalities complimented each other, with Samantha being more outgoing while Josh is a little more reserved in nature.

We dated for about 4 years before we got engaged, while on vacation in the Sedona, Arizona area over a Fourth of July weekend. We were married in November of 2004 in Ann Arbor, MI. Our closest family and friends were in attendance and it was one of the happiest days of our lives.

We currently live in a two story house in Northwest Florida and love the neighborhood we live in. It's quiet and peaceful and located within a gated community. It has a lot of open areas for biking, walking and enjoying the outdoors. There is a playground in the neighborhood and a couple of parks close to where we live. Also, there is quite a bit of conservation area in our neighborhood so on any

given day we see ducks, deer and wild turkey. One of the reasons we selected to live in this neighborhood is because of it's proximity to an elementary and middle school which are just down the street from our neighborhood.

Samantha (aka Sam) grew up in Ohio and moved to Delaware with her parents when she was 17. She still keeps in touch with her friends in Arizona, Delaware and especially those in Ohio since she spent the first 17 years of her life there. Her parents moved back to Ohio after her father retired to be closer to her 2 older brothers. Sam's parents have been married for 48 years and she has 2 older brothers who each have 2 children (a boy and a girl) of their own. Sam has Bachelors degree in Marketing and works in the for a law firm handling their business development and marketing. In her spare time, she likes to cook for Josh, read, listen to music, spend time outside working in the yard, walking in the neighborhood or cycling around the neighborhood.

Josh grew up in Delaware and his family still resides there. His sister had a daughter in July 2008 and we are anxious for her to meet her new cousin. Josh works for a homebuilder and has Bachelors degree from Indiana University. He's a big Indiana Hoosiers basketball fan and has gone to several NCAA final four tournaments. Josh is extremely handy around the house and isn't afraid to tackle household projects. He enjoys reading, playing basketball, watching sports and spending time with Sam.

As couple, we always manage to have fun wherever we are. We enjoy going to concerts, plays, art festivals and sporting events. We like attending baseball spring training games and went to the World Series in 2008.

We like to give back to our community and volunteer but we also like to travel when we can. We've traveled throughout the state of Florida and a few of the places we have visited include the Grand Canyon, Chicago, San Diego, Lake Tahoe, New York City and New Orleans. Some of our best memories as a couple are from these vacations and of visits with our friends and families. Even though our families live in Ohio and Delaware, we try to visit them at least once a year and encourage them to visit because of the warm Florida weather.

We want to thank you for taking the time to learn a little bit about us and would be honored if you chose us to be the family who will love, cherish and nurture your child.

Best Regards,
Josh & Sam
